1	Our only paper for the class seemed a bit out of place and I did not completely see it's benefits. I appreciated looking at outside choreography but wish there was an element of discussion, like a discussion on moodle where we all watch the same two videos and discuss or have a sort of show and tell and get other's perspectives on the piece of choreography. The way it was set up made it feel like it was almost just busy work.

1	The professor very clearly laid out instructions every week about what we would do. I appreciated how we knew that on Tuesdays, we would learn a new concept, and on Thursday we showed the choreography that we had spent 2 days creating and/or discussing the text that we were supposed to read.

1	I only had a slight issue with the grading of our finals, based on the rubric I did not really see any way for there to be deductions, except for basically not completing the assignment, however points were still deducted without comments reflecting the things that made certain aspects of the work so detrimental to constitute point deductions.
